

1. As non-LDS evangelical Christians, we are definitely in a religious minority in this FM market. K-LOVE is essential in meeting our spiritual and religious needs when it comes to radio!
2. If K-LOVE were to be displaced by any LPFM or other intruding signal which would degrade or limit reception as it now is, it would downgrade the availability of the spiritual and religious uplift and benefit we get from K-LOVE
3. K-LOVE absolutely meets any "public interest" test! If protecting the radio needs and reception rights of folks like us in markets where our access to this specific type of programming is still of importance, please do NOT allow any signal to intrude upon or degrade our access to K-LOVE!
